

NEPAL SCHOOL CHARITY PROJECTS

DONOR REPORT 2023

SUPPORTED BY SVEN CARLIN YOUTUBE CHANNEL

OUR STORY

Since the 2015 devastating Nepal earthquakes, the team started our charity efforts to provide assistance to rural villages and schools.

In 2018, we found our calling - to build toilets and sanitation facilities for rural schools in Nepal, powered by the core belief that **every child has the Right To Loo.**

The ultimate aim - to create conducive schooling environments so that children have a better chance of completing education to get themselves out of poverty.

Note: Despite the new name, Right To Loo remains a personal project and NOT a nonprofit organisation nor affiliated with any organisation.

MAIN PROJECT AIMS

SANITATION

Build **new school toilets with proper sewage system** to help prevent water-borne diseases.

CLASSROOM

Outfit existing classrooms with **new furniture** to create more conducive learning environments.

SCHOOL NECESSITIES

Provide **schooling necessities** such as stationery and fleece jackets for school children.

HOW WE HELP

Build new school toilets with proper sewage system to help prevent water-borne diseases.

Dilapidated toilets at rural schools without proper waste management

New toilets with water tank and proper sewage system

HOW WE HELP

Outfit existing classrooms with new furniture to create more conducive learning environments.

Basic classroom without proper furniture and flooring

Padded flooring, new low tables and table benches for greater comfort and warmth while studying.

HOW WE HELP

Provide schooling necessities such as stationery and fleece jackets for school children.

Fleece jackets help keep children warm during winter classes.

Stationery, classroom aid materials, sports equipment allow rural children to have a more complete education experience.

HOW WE HELP

Toilet building projects help provide job opportunities and income to our workers while doing good.

Project coordinator Kalu and workers working hard to provide better sanitation facilities to children

Project 8 - Completed

Shree Sharada Secondary School, Kavrepalanchok

Needs: Hygienic toilet facilities, proper classroom with furniture and fittings

How we helped:

- Built two toilet cubicles with septic tank and proper sewage system
- Outfitted classroom with good quality furniture and flooring

Total expenses = NPR 434,725

Note: All expenses are entirely for purchase of raw materials, labour cost and transportation. No admin fee involved.

Project 8 - Completed

Shree Sharada Secondary School, Kavrepalanchok

WHO WE HELPED WITH SVEN CARLIN'S SUPPORT

All projects listed below are 100% funded by Sven Carlin Youtube Channel

2023

Project 18 - Shree Sharada Secondary School

2022

Project 6 - Shree Bal Chandra Primary School

Project 7 - Shree Kalidevi Primary School

2021

Project 5 - Shree Bupaleshwor Primary School

2020

Project 4 - Shree Mallavidevi Primary School

2019

Project 1 - Shree Gyandhan Primary School

Project 2 - Shree Sunkoshi Primary School

Project 3 - Shree Jana Prabhat Primary School

Where in Nepal:

Kavrepalanchok

Ramechhap

2023 PROJECTS - FINAL EXPENSES

EXPENSES

COST (NPR)

Project 8 - Shree Sharada Secondary School

434,725

TOTAL EXPENSES NPR 434,725

Balance donations from 2022: NPR 46,834

New donations from Sven Carlin in 2023 = NPR 607,206

Total funds available for use = NPR 654,040

Total expenses for Project 8 = NPR 434,725

Balance to be used in 2024 = NPR 654,040 – NPR 434,725
= NPR 219,315

LIFE CHANGING IMPACT

We continued collecting data from the schools we helped previously and nearby village health posts to find out about the efficacy of our projects.

Compared to previous years, the schools continue to record:

- A drastic drop in diarrhea cases amongst students
- An increase in students attending school

This shows that:

- **Children's level of hygiene and sanitation is much better with proper toilets, sewage system and water supply**
- **This subsequently attracted more students to attend a school with good facilities.**

This consistent data shows that our work is making a tangible difference in the children's lives!

विषय :-
Subject :- Update data of student related to health

1. Number of students in 2020 - 104
2. Number of students in 2021 - 100
3. Students got sick by diarrhea deases in 2020 - 29
4. Students got sick by diarrhea deases in 2021 - 5

Indra Kumar Bhandari

THE TEAM

Malaysian coordinator: Selina Ng
Nepali coordinator: Kalu Tamang

Selina and Kalu first met in 2014 on the Everest Base Camp trek organised and guided by Kalu's trekking agency, Nepal Azimuth Treks.

Since the 2015 devastating Nepal earthquakes, we started our charity efforts to provide assistance to rural villages and schools and have not looked back since.

Kalu manages the on-ground school visits and building in Nepal while Selina works on fundraising and donor liaison in Malaysia and abroad.

We do this on a volunteering basis on top of our full-time jobs. Due to time and resources limitations, we apologise for any delays in progress/reporting. We're committed to do our best and immensely grateful for all the trust and support given.

Right To Loo is an ongoing project with no donation deadline. As long as there are donors who want to help, we will continue assisting the growing list of schools to improve schooling facilities for Nepali children.
